

Articles onto which you can add your logo, are marked with „**Add your own logo**“. Additionally, you can find all these products in the category „**Own Logo**“.

Notes on your individual logo:

Upload:

At the end of the order process in the shopping cart.

The logo should be uploaded as *eps, zip, rar, ai or image file (jpg) with a minimum of 300 dpi (max. 4MB).

Or you define an individual slogan under "label" (under the product name).

Important: either a logo or or a slogan can be added.

Data processing:

20 € additionally if the master is not made available in the correct resolution.

Print:

The logo can only be printed in white (one colour) due to corporate design issues.

Order amount:

Minimum order value 50€

Logo positioning:

On the chest (ca. 280 mm width, resp. height)

On the back (ca. 120 mm width, resp. height)

* Information on the use of EPS files can be found on page 2

Why vector graphics?

Vector graphics can be scaled steplessly without any loss in quality – contrary to raster graphics. Furthermore, with vector graphics, characteristics of single lines, curves or areas remain and can even be changed later.
